

Six A's Project Outline

Project Abstract and Description

Academic Rigor

Describe the learning standards and habits of mind that students will develop through the project.

Authenticity

In what ways does the project address issues that matter to the students?

Applied Learning

What competencies and skills will students develop?

Active Exploration

How will field-based investigations and community exploration be incorporated into the project?

Adult Connections

How will the project connect students to adult mentors and coaches from the wider community?

Assessment Practices

What standards of real world performance will be used to assess student performance?
